PRISON-BREAKING IN KOBE.

A convict escaped from the Hyogo branch of the Kobe prison on Dec. 27 and got clear away although he had his prison clothes on. The convict escaped from the prison printing works at about six o'clock, while the warder was out of sight for a very short space of time inspecting another part of the works.

Directly the escape was discovered, a police cordon was drawn round the city, but wishout catching the fugitive. The convict is a youth of 19, and was a minter's "devil" in Awaji. He set fire to his master's premises out of revenge for alleged ill-treatment, and was sentenced to three years' penal servitude on Novem-. ber 28th last.

When the Hughes Comedy Company left Yokohama for Kobe by the midnight train on Thursday night, says the "Japan Chronicle" of Dec. 29, there went with them two local recruits in the persons of Miss Fearon and her sister Miss Marjory, daughters of the well-known broker, Mr C. H. Fearon. As the comedy was in pro- be clearly marked 'Tender for Lease of gress at the Gaiety, Yokohama, the two girls with their father were behind the reenes watching how things are worked, and when the curtain fell at eleven o'clock the girls, went away with the rest to the station to start on their new careor. The Missos Fenron have been what is known as stage-struck for some time, says the "Japan Advertiser," and when the Bandmann Opera people were in Japan last summer they sought admittance to that organisation, but without success. But their enthusiasm would not yield to this rebuff, and on Thursday morning they called with their father upon Mr Hughes and got what they wanted. They will be numbered among the sprightly members of the chorus in future, and were to make their dibut when the company arrived in blanghai.

HARE & GENERAL BROKER. Rev. W. T. Austen, the Chaplain, submitted the secounts, which showed a credit balance at the beginning of the year of \$728.17, and a credit balance at the end of the year of \$394.48. The Chairman, in opening the proceed-

ings, said with reference to the accounts that the statements were not for twelve months, but for nine months. Previously the accounts had been made up to the end of March. The annual meeting was held in January so it did not soom a very convenient arrangement. It was obviously necessary, therefore, to present a statement for nine months, at that meet-THE Undersigned has received instrucing. With regard to the adverse balance on the Institute, he thought that it would not have been so great had it been statement for twelve months, as the 17th January, 1913, commencing atcliminated the profitable months of January and February and the fairly good month of March. The present Chaplain was asked by cable from London about the middle of March, 1912, to go to Hongkong' and take charge of the station during the absence on leave of the Rev. C. E. Thompson. Arriving in Hongkong on the 16th of April last, he began his work on the 18th and has continued, by the Grace of God, until now. At the end of six months the Home Committee decided to find suitable work for Mr. Thompson at home, and to send their Chaplain at Valparaiso to take charge of the work here. We are all looking hopefully forward to the arrival of Mr. Reyholds, which we trust may not be Mr G. Aurely later, than the middle of February. In reviewing very briefly the work of this Mr J. G. N. MISSIONS TO SEAMEN.

(Continued from page 3.) solf-dunying work, but we are acoply grateful to all and we feel sure that they must have felt in some measure repaid by the hearty appreciation of those who attended. The work at the Institute has gone on very much as usual. In the past nine months the attendances of somen frequenting the rooms numbered approximately 2,878 merchant seamen and 12,380 naval seamen. Approximately 9,800 seamen have slept in the cubicles and dormitories and some 10,000 good wholesome niesla have been served during the same period. A Sunday evening Gospel meeting has been conducted by the Chaplain and on Christmas Day a successful ton and entertainment was given at the Institute to about Bap 130. After the tea the Bishop gave the men a hearty welcome and told them how much their services were appreciated by the residents of Hongkong, and wished thum, in their name, a very happy Christmas. An adjournment was then made o the concert hall where the rest of the evening was spent by a capital smoking concert and round games were indulged in with a great deal of fun and enjoyment. Later in the evening Christmas Carols were sung and a fine Christmas brig was 'unloaded and nearly 200 small gifts were distributed to the sailors present and, on Boxing day, to the crew

of four merchant steamers. To our managers, Mr. and Mrs. Davies and the inithful workers at the Institute, we owe a debt of gratitude and also to those who have assisted at the services. It now remains for the Chaplain, whose departure is so near, to endeavour to express his feelings of heartfelt thankfulness to all those friends who have done so much to help forward the work in different ways and to lighten its burdens to the Church Council, to the honorary organist and members of the choir at St. Peter's, also to Messrs. Reynolds and Davies for collecting seamen during the summer months for the services and meetings. May God's richest blessings rest upon all the workers during the year now begun and upon the labours of the new Chaplain, who we trust will take up his work in the fullness of the blessing

of the Gospel of Christ. The Chairman said he was sure they would all be very pleased with the report that had been given. Rev. Mr. Austen had worked very hard, and he had heard on all hands of his zeal. The satisfactory state of the Missions to Seamen at the present time bore witness to the success of Mr. Austen's work. It involved a great sacrifice on his part to come from Yokohama to take up the

work here when they were in such need. It meant separation from his wife, and it had caused him very much anxiety and difficulty. He now proposed to stick to the post until Rev. Mr. Reynolds ar rived to relieve him on March 20th. Mr. Raynolds looked forward with great delight to his work in Hongkong, and he was sure they would give him a hearty eception. (Applause.) He wished to thank the Committee, who had worked so zealously in the past year. (Applause.) Rev. Mr. Morton, Naval Chaplain, proposed a vote of thanks to the committee for their work during the past year. The members of the committee were men of business and profession. whose time was fully taken up and itwas good of them to give spare time in

looking after an Institution such as that. The Institute was run as a home for the bluejacket when ashore to assist him to avoid temptation. That was what he wanted, and he was sure that "Jack" the mercantile marine wanted the same. (Applause.)

The vote of thanks was passed. The Hon. Mr. H. E. Pollock, in returning thanks on behalf of the committee, said that busy men as they were, their labours had been very willingly and cheerfully given, and they were ready to continue those tasks in the future. The energy and activity of Mr. Austen as seamen's chaplain had been quite beyond praise. He had infused great vitality into the work. He was a good friend to the seamen in the port, and he had been of great assistance in collecting a considerable sum of money for the furtherance of the good work. It was the earnest wish of the committee that Mr. Austen would be appointed by the committee at home to a position in which his services would be retained for the benefit

of seamen. Rev. W. T. Austen expressed his thanks, and said he had felt all the way slong that the committee was backing

On the motion of Rev. G. B. Berry, seconded by Mr. G. Piercy, the follow. ing committee was re-elected: Bishop lander (ex-officio), Commodora Anstruther, Hon. Mr. W. Chatham, Hon. Mr. H. E. Pollock, Mr. L. Gibbs, Dr. Francis Clark, Mr. G. W. Barton, Mr. F. B. L. Bowley, and Rev. W. T. Austen (Secretary, pro tem, to be succeeded by Rov. Mr. Reynolds)

A vote of thanks to the Chairman concluded the meeting. A dinner was subsequently held at the Institute, at which about 150 were present. Later a lantern lecture on "The Present Position in the Balkans " was given by Rov. B. B. Berry in the

The soothing, healing, and tonic properties of Angier's Emulsion eminently adapt it to the relief and cure of stomach and bowel disorders of a catarrhal, fermentative, ulcerative or tubercular nature. Simple and harmless, this remedy exercises its soothing, lubricating effects throughout the entire alimentary tract. arrests fermentation, checks bacterial growth, and promotes normal, healthy action of the bowels. Angier's Emulsion has proved most efficacious in gastric or intestinal catarrh, gastric ulcer, mucous colitis, chronic indigestion, nervous dyspepsia, chronic constipation, and in many obscure bowel disorders.

"Completely Cured my Stomach Catarrh." Dear Sirs,—For many years I have used Angier's Emulsion for threat and lungs, and always with beneficial results. crowd to the Military ground yesterday, Great excitement prevailed throughout the same, for both teams, were unbeaten and a win for either side would give that side the championship, the Koylies having drawn one game and lost two points to the Hong kong Club for an unfilled fixture, and the gunners have drawn two matches. Mulling secured and crossed finely to Melia who shot wide with only the godlie to beat. At the gunners end Colmer made a brilliant clearance from Pearson and Lindley, but Schofield and Vickers, by fine combination, returned and Roseitter was hard pressed in saving from Schofield. Berry put in affine run and centre pass to Melia and the winger running in lifted the ball over Tunstall's head into the net. This success was loudly applauded. The Koylies now played finely, Dewick and Schofield were responsible for keeping play in the gunners quarters. Penrson shot wide when well I laced and a fine shot by Garrett was saved by Rossitter. Lindley and Pearson made a fine attempt to get through and penalty was given against Court for holding hut Pearson taking the kick shot straight at Rossitter who kicked to touch. Clarke restarted for the gunners but the Koylies were the first to assume the aggressive. Court put a stopper on Lindley who had beaten several opponents a a race for the goal. Form a "free" against the Koylies, Berry forced Tunstall to save. Green nearly forced his way through but was overpowered by the two backs and a goal kick resulted. Hedges secured and put to Lindley who transferred to Alp and the winger put in a fine run and centre but Vickers with an open goal put the ball back across the goal mouth to touch from a few yards range. "Keeping up the pressure the Koylies too equalised rather luckily. Dewick dropped a spinning ball into goal and Rossitter through hesitation misjudged it, and after hitting the post Alp rushed up and put it into the net, amidst the terrific cheers of the Koylies supporters. From the kick off Berry put Poole away and after a long run Millership nipped in and cleared. The Koylies now put on some severe pressure and nice combination between Lindley and Alp brought Rossitter from his goal to save but the goalie missed and Alp unaccountably missed with a vacant goal and Court rushing up cleared. Poole got away twice and a corner was forced but Dewick brought play back to the gunners end and Rossitter had to save from Alp and Vickers, Pearson also shooting over. A hot time for the gunners defence was ended by Colmer, and Poole run three parts of the field before being pulled up by Stangroom. Tunstall saved from Green before the Koylies resumed the offensive. Richards saved with Rossitter helpless and Pearson again shot over. Play slightly favoured the Koylies to the end but the splendid defence of the gunners saved the situation. The referee unfortunately had to order a Koylie off the field just before the close and time was called with

WHITE CLAYE TRAFFIC IN INDIA.

In roply to a reference from the Government of India, the European Defence Association has submitted the following views through the Government of Bougal, upon the Hon'ble Mr. W. C. Madge's Female Slave Trade suppression

In accordance with the request of the devermment of India the Council expressly refrains from criticising the drafting of the Bill as it at present stands and has confined itself to the consideration of its main principles.

The Council would first respectfully the Imperial Parliament was as originally drafted "The White Slave Traffic Act, 1912," and that it has since been amended by the House of Commons to " The Criminal Law Amendment Act, 1912. It would, therefore, recommend the use of a less sensational title than that attached to the Bill now under reference.

The Coursell modices that a tions on its part as to the sufficiency or ir-uffictioney of the existing Laws for cheeking or controlling this social evil can carry but little weight as compared with the exact evidence available to Governmeet in the statistics of crime, or with the considered opinions of Police Officers and others whose duty it is to watch and bring to punishment the offenders. If, however, there is reason to believe

that it is necessary to strengthen the Law against persons who traffic in women, it is of opinion that such legislation should primarily be directed against those who procure miner girls or other women of good character for immoral purposes by, duress, false pretences, threats, intimidation, or the like, and in so far as the Bill facilitates the bringing to justice and the punishment of such offenders, it has its subjustified support.

This is as far as, in the opinion of the Council, the Bill can safety go., Legislation directed apainst a social evil of this nature should be extremely caution, since nature should be extremely enutious, since excessive severity may result in ills as bad as, if not whorse than, those it is In conclusion I am to say that 'the' Council considers that there is no advantage to be gained by creating a special and novel form of precedure for the arrest and trial of offendors, -" Madras, Mail,"

They come in at all hours, either b themselves or in their owners' arms, and cut meat and other delicacies out of nice white enamel dishes. Some of them bring friends, who are generally so impressed that they also come again. There are many animals who "drop in " from time to time when times are bad at home and they feel the need of sustenance.

Prices are very moderate, and there are no "tipe." All the regular customers pay weekly. They generally bring the money themselves, either in an envelope between their jaws, or tied round their necks. Many, it is said, insist on having receipts. MEETING OF DONORS. Management Committee

Appointed.

MR. HICKLING ANSWERS CRITICISMS.

In spite of the storm of criticism which the recent management of the Dogs' Home has evoked in the Colony only fifteen subscribers and denors attended the meeting last evening convened by the Rev. H. C Hickling for the purpose of receiving the accounts of the institution and appointing management committee to carry on its

Mr Hickling, who was voted to the chair, in a lengthy speech outlined the history of the two Homes and dealt with the criticism which the management of the present institution at Causeway Bay has evoked. The first home was self-supporting, and that success made them feel justified when the site reverted to the Government, in starting the present home at Causeway Bay. Explaining why no managing committee was then appointed he said it was imperative that " the home should be established without any delay, and in view of some equivocal statements made at the time he made himself responsible for all contributions for its establishment, and Mr Tata his time. Beyond my own account of the made himself responsible for its superin- | monies received you will gather that I have tendence and maintenance. It had been known little or nothing more than most of sugjested that a department for cats you, and less than some of you, as to the should be added to the home, and one condition of affairs, so that I can only give or two subscriptions were received for my opinion for what it may be worth on that department, but Mr Tata shrank from that experiment. That scheme had therefore been abandoned. the special donntions received for that purpose had been returned. The change Demure, 1 mile, 40.2, 1.19.1, 1.57.3, of premises affected for a considerable time the sale of dogs, but lately that business. Norman Chief and Mr. Apear's sub., had improved. With reference to the charges of misnianagement and under-feeding of the animals he said he seldom visited the home himself, but he was pleased to

see in the remark book testimonials from many visitors, some of whom were Government officials, testimonials as to the clean liness of the home and the comfort of the animals. The bome was always open for inspection, and he could not understand the reference to Mr Tata having the key. This statement must have been made under a misapprehension. Of course when the coolie was away fetching dogs he took the key with him. It was sought to remedy this by having a married coolie, but, as they all knew, Chinese coolies needed a great deal of vigilence. Mr Tata seemed to have done his best to keep things in ginning of January and when the raid was made on the 3rd or 4th he had evidently not had time to get thoroughly into the the management. swing of his duties. Since the Home had presentations to him with regard to it, but in every case he had referred them to the superintendent as he had no share in its management. During the early part of 'ast December some people had represented to him that it was a pity to keep certain

dogs alive, and though he had no more

He replied to Mr Tata to the effect that he (the speaker) had suggested that it could only be made to thought advisable not to do anything until the return of the Hon. Mr Hewett, who was president of the Society for the Prevention of Cruelty to Animals. Raids wore made on the 3rd, 4th and 5th January, and since then Mr Tata had not been to the Home, as he preferred that his resignation should take effect at once. For the convenience of the donors the speaker had received the books and financial statement, and hoped to have had the accounts audited in time for that meeting. The vouchers were produced with the exception of one, which Mr Tata explained was in the Home, but the key had been taken from the coolie in charge and he was shut out-So far as he could see the books appeared to been carefully kept. The home had been self-supporting, and there was \$5 to the good. The balance in hand was 8724.79, a cheque for which amount would ha handed to the new committee. Referring to criticisms of the manage ment of the home which appeared in two of our contemporaries Mr Hickling stated that he highly detecmed and valued newspapers

accomplished any good so far as I am aware. They have been utterly futile. The one thing done has been to shake the confidence of the public in the whole concern. The raid had already been made and certain dogs destroyed, but the articles The writer of the articles in the Day'y Press" laboured to fix upon me personally the stigms for something with which I had no more real responsibility than he had. I cannot think that he had any ill motivo whatever, but I cannot yet see a worthy one. Parhaps it would have been better if he had empired just a little of ma before wr time THEN your child has whooping cough a tremendous disputagement, which, like mud thrown, is apt to leave a dirty mark even when it has dropped off. No ore knows better than an Editor that we cal mony with 24 hours start is never wholly mertaken This personal attack sourcely

in general. It seems to me, however, he

continued, that in this instance the Editors

have been misled into a waste of their

valuable space. Neither of the articles has

and working to promote, and, further, intends to prevent voluntary acts on the part of the various workers in different. social understakings. After all, the utmost and worst that can be said against the

management of the superintendent even was that at the cost of much personal trouble he was exercising a mistaken kindness. He said "Home" where others asaid "Mortunry." The allegation of under-feeding the dogs is not supported by one shred of evidence. Nay, more, the fact that one or more o the dogs at the time of the raid had actually left fresh, wholesome mest in the tin was carefully omitted when some other aubsidiary facts were mentioned. On every hand it is evident that proper and sufficient food was provided and actually given to the dogs. I know nothing of Mr F. K. Tata except as the Superintendent of the H me. In that capacity I believe he has done excellent work, and that the atmost that can be brought against him is mistaken kindness. The in inustion about melversation of funds is a stab in the back. A man who has given his money, thought, and time, and renders at once when challenged the full account with books in proper order, has insinuations thrown at him by a man who, so far as

five cents of his money or five minutes o the facts stated. I have done, and I thank you for the patient hearing. I regret that the first meeting should have so much of its time taken up needlessly, but the occasion has arisen from the outside and needed to be dealt with. You will probably elect a Committee of Management, and trust they will have pleasure and prosperity attaching to their work. I fear that: gradually the Home will come mainly into professional hands and inevitably bye and bye the public will have to pay more for what the Home can supply.
